

NEW YORK STATE

2023

HIV PRIMARY CARE AND PREVENTION CONFERENCE

Friday, June 23, 2023 | 8:30 AM - 3:30 PM

Innovative Strategies in HIV Care and Prevention

HIV treatment and prevention strategies have advanced in recent years, from the advent of Pre-exposure Prophylaxis (PrEP) to, more recently, long-acting injectables (LAI) for HIV treatment and prevention. In order for these interventions to be truly effective in ending the HIV epidemic, healthcare providers must offer state-of-the-art technologies and make them accessible to all. In this full-day virtual conference, presenters will speak about:

ART | PrEP | Long-Acting Injectables | HIV Research Pipeline
HIV Cure Updates | HIV Vaccine Updates | Health Equity
