Caring for Pregnant Persons with Substance Use Disorder: Shifting from Criminalization to Chronic Disease Management

FEBRUARY 07, 2024 • 2:00-3:00PM

Learning Objectives

1. Understand, through example, how racial and moral constructs have historically shaped medical diagnosis and management of substance use disorder (SUD) in pregnancy.
2. Review key issues faced by pregnant persons with substance use disorders when navigating care systems.
3. Provide appropriate referrals for pregnant persons with substance use disorders.

This training meets the DEA education requirement on substance use disorders
