

The Clinical Education Initiative  
Hepatitis C & Drug User Health Center of Excellence

presents

# Clinical Approaches to Medical Cannabis

MARCH 06, 2024

2:00-3:00PM

## Learning Objectives

1. Discuss how the historical and cultural context of cannabis regulation in the United States has impacted current policy and practice patterns.
2. Demonstrate an understanding of the risks and benefits of using medical cannabis.
3. Describe harm reduction principles to patients who use cannabis in clinical practice.

This training meets the new DEA education requirement on substance use disorders
