Managing HIV Co-Morbidities

Monday, January 13, 2025

12:00 - 1:00 PM

[Register here!](#)

LEARNING OBJECTIVES

1. Review the changing epidemiology for HIV disease in relation to age-related trends in cardiovascular disease.
2. Explain the risk factors for CVD unique to the HIV population as well as those similar to non-HIV status.
3. Identify the reasons, including weight gain, why HIV-infected individuals are at particular risk for type 2 diabetes.
4. Recognize Oral Considerations in the Management of HIV.
